NUMBER 195

"NOT GUILTY" IS VERDICT AT MATEWAN

Williamson, W. Va., March 21.—West Virginians charged with murder in connection with the shooting of seven detectives at Matewan were found "not guilty" today. The case was submitted to the jury late Saturday afternoon. The trial grew out of the shooting of seven detectives of the Baldwin-Felts Agency. The hearings lasted more than a month with detailed testimony regarding the labor situation at the time the described revolver battle in which the detectives were slain. The defense took the verdict without a motion. They were confident that acquittal would be the outcome. Officials feared a demonstration might be started.

Williamson, W. Va., March 21.—Labor troubles in Mingo county mines resulted in the battle of Matewan and reached a climax today in the result of the trial of Sid Hatfield, youthful police chief and 19 co-defendants.

Ten men were dead when the open battle in the streets of Matewan between Baldwin-Felts detectives and deputy sheriffs ended. Albert C. Felts, leader of the private detectives and Mayor Testerman, of Matewan were among those killed.

The fight occurred last May after the Felts men had evicted striking miners from company houses. The detectives had completed their work and were enroute to the railroad station. An altercation arose over warrants—one Felts held for the arrest of Hatfield and one for Felts' arrest Hatfield attempted to serve.

The state contended Hatfield's followers opened the affray to prevent their leader's arrest. The defense, claiming the accused fired in self-defense, charged the detectives' guns cracked first.

More than 300 witnesses were summoned. Those that took the stand testified as character witnesses and other details. Both sides presented virtually the same number of eye-witnesses.

The defendants were S. Hatfield, Charles Kiser, taxicab driver; George Chambers, carpenter; Clare Overstreet, clerk; James Overstreet, freight house employee; Ed Chambers, police officer, and the following miners: Arch Williams, William Bowman, Dug and Ben Mounts, Jesse Boyd, Hallic Chambers, Lee Toler, William Starr, W. R. Coleman, Albert Burgett, Van Clay and Calvin McCoy. N. H. Atwood and B. R. Page, originally indicted, were dismissed on motion of the state.

Judge R. D. Bailey called the trial in circuit court here January 26. The entire county was nearly exhausted of veniemen before 12 acceptable to both sides were secured February 9. Many were excluded from service because of union affiliations or relation with some defendant. Evidence-taking began February 13.

Chief interest in the trial centered about Hatfield. His relationship with the famous "Devil Anse" feud history attracted attention. His marriage to the widow of Mayor Testerman, two weeks after the Matewan shooting, made him a figure of interest. His wife, fashionably dressed, accompanied Sid in court daily.

During the trial deputies guarded all doors, searching every person who entered the court room. Revolvers were found on spectators and witnesses many times during the early days, but as the spectators became accustomed to the proceedings no difficulty was experienced.

Appearance of federal troops summoned to prevent a second Matewan added additional color to the trial. These soldiers constantly patrolled the streets and maintained order. An attempt to withdraw the soldiers during the trial met strenuous opposition from authorities who feared trouble on a broad scale.

Williamson, fits snugly in a hollow in the Cumberland Mountain. The little town of 7,000 inhabitants reaches part way up the mountain. It is the center of one of the biggest coal mining districts in the United States and is in a community where life is held lightly in all.

Arrives Today

SEVEN THOUSAND BOTTLES "JAKY" AT HOUTZDALE TAKEN BY SHERIFF

Saturday Evening Raid Also Nets Fine Still and Large Quantity of Home Made Wines

2 TRUCK LOADS TAKEN

Houtzdale citizens some two weeks ago organized a Civic Club as a sort of self defense measure and for the purpose of endeavoring to control, to some extent at least, the illegal sale of intoxicants in their town. They found a prolific field for effort and as a result of their activities six search warrants were sworn out for many residents of the town and placed in the hands of Sheriff Gorman for execution.

Saturday evening last, Sheriff Gorman, Deputy Sheriff Gilliland and three special deputies dropped into Houtzdale and proceeded to make a clean-up. The first place visited was that of Mary Abrams, who conducts a general store on the main street. Here the officers succeeded in unearthing a home-made still on the second floor of the building, while in the store they found ten cases of a decoction labeled wine and peppin with an alcoholic content of not less than 25 per cent, and 3000 bottles of Jamaica Ginger.

After confiscating the contraband, the officers swooped down on the store of Abraham Elias, also on the main street, and found no less than four thousand bottles of Jamaica Ginger. In this seizure were fifty two cases of the fiery stuff untouched. The "Jaky" has an alcoholic content of 92 per cent.

Neither of the alleged bootleggers would talk, but those "in on the know" say that Houtzdale's bootleggers have educated tastes and while they don't love the kick contained in the Jaky they prefer to have their "coddled" "dehorned" by the extraction of the fiery ginger and the substitution of a more mild flavored beverage or container. Hence it is further claimed that Mrs. Abrams used the still to extract the alcohol from the "Jaky" and then added the real stuff to grape juice and other mild and pleasant drinking beverages. In understandable language she fitted the home grown white mule with pneumatic shoes, which acted as shock absorber of the native kick after concoction.

Two truck loads of merchandise, "wet goods" or their concomitant parts were secured by the raiders without a "shot in the air" being fired or left on the premises and there was much anguish among the thirsty population when all the booze went by under convoy of the husky

WEBSTER, MAN'S MAN AGAIN TOMORROW

We regret that our serial story was crowded out of this issue, but we will give you a good sized piece of this fiction pie tomorrow.

TRAINMEN GOING TO HAUL WHEAT FREE FOR CHINA RELIEF

The trainmen of Clearfield at a meeting held yesterday decided to volunteer their services to the railroads of the country for the purpose of transporting wheat from western wheat fields to the sea coast for shipment to the starving people of China.

Some time ago western wheat growers agreed to contribute many thousands of bushels of their surplus wheat to the starving Chinese, provided that the railroads would transport it to seaboard for loading on ships free of charge.

The railroads agreed to the proposition on condition that the railroad men would run the necessary trains without compensation. The patriotic and charitable American citizens engaged in railroading were not a bit lacking in generosity, regardless of the fact that their giving of their services meant a total loss of earnings during the time engaged in this charitable undertaking, and have been volunteering to a man for the work.

Thus the wheat will soon be transported free of charge to its destination and many starving persons will be fed through America's generosity.

MRS MITCHELL SHOPE'S FUNERAL

The remains of the late Mrs. Mitchell Shope will arrive in Clearfield on the 6:15 Pennsylvania train this evening and will be taken to the home of her son, Leonard Shope, on Nichols street. The funeral will be held from there tomorrow afternoon at 2 o'clock. Interment in family plot in Hillcrest cemetery.

Miss Olive Shope is accompanying her mother's remains from Portland, Oregon.

deputy Sheriff, on its way to the county seat, where no one drinks unless he can get it.

A third party, whose name we did not learn, who is said to have been whisking "Jaky" was also taken into custody.

All three defendants gave bail for their appearance at court. Sheriff Gorman and Deputy Sheriff Gilliland went back to Houtzdale yesterday and expected to round up the other three suspects before returning.

CYRUS W. WOODS WILL BE AMBASSADOR TO SPAIN

Once Again Pennsylvania Gets Recognition From Harding Administration by Fine Appointment

NOW SECY COMMONW'TH

Washington, March 21.—Cyrus E. Woods, of Greensburg, secretary of the commonwealth of Pennsylvania has been recommended for ambassador to Spain to President Harding. Senators Knox and Penrose have endorsed him for the post. Secretary Woods is qualified for the place by reason of his service as United States minister to Portugal during the Taft administration. The most formidable men aside from Secretary Woods is Colonel Isaac T. Mann, of Brannock, W. Va. Colonel Mann has the endorsement of his state for the place. The position, it is expected, will be filled soon.

SUNDAY FISHING IS EXPENSIVE SO THIS FELLOW WILL FIND

Several nature lovers hiked out on the mountains yesterday and while sitting on the banks near Trout Run were surprised to see a lone fisherman come slipping up the run whipping pool and wiffle as he came along. The illegal fisherman plucked along almost up to the party before he happened to see them.

He glanced up long enough to get a glimpse of the watchers and with one jump was off into the brush like a startled deer. Game Protector Davis was given the fellow's name this morning and when Mr. Davis lands an illegal deer slayer out in the Walpole country tomorrow or the next day he will slip quietly out and allow the early fisherman to settle for his law violating.

The Game Protectors have been notified to patrol the different trout streams from now until the season opens.

NOON STOCKS

Twelve o'clock prices on the stock exchange today were: American Locomotive 87, Anaconda 87, Baldwin Locomotive 88, Bethlehem Steel 77 1/4, Central Leather 10 3/4, Crucible Steel 89 1/2, Erie 12 1/4, General Motors 14 1/4, Middle States Oil 12 7/8, Milwaukee 30 3/8, Penna 37 1/4, Republic 97 7/8, Sinclair 23, United States Steel 51 1/4.

Miss Ruth Bair and Bertha Tappery, of Philipsburg spent Saturday with friends here.

WHEELER, DRY HEAD, IN CONFERENCE WITH PRESIDENT; DISCUSS POLICIES

Washington, March 21.—President Harding had his first brush with the prohibition enforcement problem today.

Wayne B. Wheeler, general counsel of the Anti-Saloon League, was one of the callers at the White House today. It was understood Wheeler had a double purpose in coming to the White House.

First, to urge the president to appoint a known dry to enforce prohibition.

Second, to learn, if possible, what Harding's attitude would be toward amending the Volstead law to overrule former Attorney General Palmer's ruling that beer may be sold as "medicine" and to tighten the restrictions for withdrawal of whiskey from bonded warehouses.

SECRETARIES DAVIS, WALLACE AND HOOVER HOLD FIRST HEARINGS ON THE WAGE DISPUTE IN PACKING INDUSTRY

Washington, March 21.—The Harding administration today tackled its first big labor task, which is the dispute between the big packers who furnish meat for the American dinner table and their employees. The packers and their employees today went before the committee of three cabinet members to lay the foundation for their claims. Secretary of Labor Davis, Secretary of Agriculture Wallace and Secretary of Commerce Hoover compose the commission.

HOOVER SAYS NO TRADE WITH RUSSIA POSSIBLE UNTIL BOLSHEVIKI LICKED

Washington, March 21.—Resumption of trade with Russia is impossible until the Bolsheviks is overthrown, Secretary of Commerce Hoover stated today. The return of economic stability in Europe depends on the defeat of the Bolsheviks by Russia, he added.

FORTUNES OF WAR RESULT IN VATICAN GAINING IN DIPLOMATIC INFLUENCES

Rome, March 21.—With the cessation of the war, the former with the rank of an ambassador and the latter presiding with a minister. As a consequence the Vatican is today in diplomatic relations not only with all of the great Catholic countries of the world and most of the Protestant nations, but it has succeeded in entering into semi-official relations with several of the great nations with other religions, such as Turkey, Japan and China.

Diplomatically therefore the Holy See has attained a representation never before reached in the history of the church. The increased prestige and strength that has thus come to the Vatican largely as a result of the war will be used, as Pope Benedict has already made known, in every possible way to bring about a peaceful post-war adjustment throughout the world.

The five countries which now have diplomatic representatives at the Vatican with the rank of ambassador are Peru, Chile, Prussia, Brazil and Spain. The other countries represented with ministers are Argentina, Austria, Bavaria, Belgium, Bolivia, Colombia, Costa Rica, Czechoslovakia, Ecuador, Germany, Great Britain, Haiti, Honduras, Monaco, Nicaragua, Holland, Paraguay, Poland, Portugal, Roumania, Russia, San Domingo, San Salvador, Jugoslavia, Hungary, Uruguay and Venezuela.

A total of 31 countries now maintain official diplomatic relations with the Vatican, five with the rank of ambassadors and 26 with the rank of ministers. To this number it is expected here both France and the United States will be added, the

RECORD BREAKING SUNDAY SCHOOL

You have to hand it to those West Side Methodists. When they start out to do a thing they do it. You can bet your bottom dollar on that.

Even though Methodists, as a rule, are opposed to betting, or for that matter, games of chance of any kind. A good Methodist knows a fellow don't have even a chance at betting, by the pearly gates unless he not only reforms from "taking a chance" but, in addition thereto, the path pointed out to him in the scriptures. But here we are moralizing and handing out bouquets to our Methodist brethren when we really started out to compliment those West Side Methodists on the fact that their Sunday School yesterday was the largest in the old town's history.

For some time past Supt. Harry Shaw and his aides have been striving to get the Sunday School membership an attendance up to 500 persons. Yesterday their efforts brought forth the desired fruit, as the number in attendance at the Sunday School made the landmark total of 540.

Some attendance, some record, and those hardworking West Side Methodists are entitled to feel just "some" chummy over their accomplishments. Add West Side church.

Secretary C. Edward Cook, of the local Y. M. C. A. preached at both morning and evening services, in the absence of the pastor, Rev. C. C. Snavely and almost capacity congregations greeted him at both services.

Bishop Shaw is home from Dickinson College spending his Easter vacation with his mother here.

Mrs. Robert B. Wallace has returned to her home on Ogden Avenue after visiting friends in Pittsburgh for the past couple weeks.

COURT NOTES

Suit was entered in Prothonotary Rulston's office this morning by Pentz and Pentz on behalf of Thomas Harrigan and against C. A. McDonald, of DuBois. This suit is brought by Harrigan to recover \$7,062.38 which he alleges is due him from McDonald for coal furnished during 1920.

The plaintiff's statement recites that on June 14, 1920, Harrigan made an agreement with McDonald for the use of a mine he owned. According to the terms of the agreement Harrigan was to pay McDonald 75 cents for each ton of coal mined and from the date of agreement up to October 20, 1920, when the agreement terminated, had purchased 1,500 77 tons from Harrigan at a total cost of \$15,167.50. Of this amount the plaintiff alleges \$7,062.38 is yet due, and this with the addition of \$500 allowed Harrigan for removing his rails from McDonald's mines, makes up the amount sued for.

Judge Bell on Saturday last granted permission to Supervisor Isaac W. Pace, A. M. Enigh and Willard Evans to use the road mileage of Graham township from 10 to 20 miles. Under the 10 mile rate the annual road fund totaled but about \$1200 and as this was insufficient to keep in proper repair the 42 miles of road in the township the increase in mileage was asked for.

Mr. and Mrs. Ross Eskelman and children of Bigler, spent Saturday with friends here.

Miss Margaret Scott, of Pittsburgh is visiting her parents here for a couple of weeks.

TAX EXEMPTION IS RESULTING IN HOME BUILDING IN N. Y.

New York, March 21.—A boom in dwelling house construction is under way in New York City according to Henry Curran, President of the Borough of Manhattan. Figures made public by Curran today showed that during the first two weeks of March plans were approved for homes for 1,076 families compared with 410 during the same period last year or a gain of 61 per cent. Curran said he believed the ordinance exempting new dwellings from taxes for ten years was responsible for the increase.

U. S. RECLAMATION MANAGER VISITING PARENTS AT GLEN RICHEY

James L. Lytle, a Clearfield county boy who has made good and who is working for the front in his profession as Consulting Engineer, is visiting his parents Mr. and Mrs. J. B. Lytle at Glen Richey at present. Mr. Lytle, we learn, will leave shortly for Washington, D. C. to attend the National Convention of U. S. Government Reclamation Engineers, of which national organization he is a prominent member. Recently Mr. Lytle was promoted to be manager of U. S. Government Reclamation Projects to be in charge of the State of Washington and that far off Western section which will necessitate the removal of his family and offices to Yakima City, Wash., as soon as the schools at Los Angeles have closed in that California City where he has resided several years. Mr. Lytle likes the spirit and pep of the west and could hardly be induced to return to the East except upon occasional visits with his home folks and early associates.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Mr. J. C. Collins left on Saturday for Williamsport, Pa., and spent Sunday with his family.

A child of Mr. and Mrs. Thomas Fleming died about six months, died at the Clearfield home last Thursday.

The funeral was held on Saturday afternoon at the home of the deceased.

A social under the auspices of the Clearfield Epilepsy Society, of the Presbyterian church, was held last Friday evening.

Henry Hill was unfortunate last Saturday by losing one of his valuable workhorses.

Mr. and Mrs. Geo. Holden, of Tyngsboro, spent Sunday with Mr. and Mrs. Peter Mowery at their home on March 21st.

Lamorne Bacon dropped into town last Friday evening and spent Sunday with his parents.

Mr. Thomas O'Connor, who has been confined to his home for two weeks past by illness, was able to get out for a few hours on Saturday.

We were informed Saturday evening by a gentleman who called to us that he had been to the Clearfield Epilepsy Society.

Three new Ford autos came to Curwensville last week. They were purchased by W. A. Thompson, Guy Seidman and St. Richards Jr.

A good many patrons are thinking seriously of taking out their H. & C. plates since that company has announced an advance rate.

The members of Joshua Sipes Post No. 255 American Legion are to be commended for their generous action in granting to the old Civil War Veterans and Spanish American War soldiers the free use of their rooms for all social gatherings they may want to have.

That Curwensville is going to have a baseball team during the coming summer season, we are assured by Jacob Kottar, editor of the American Legion news column which appears weekly in the Herald.

The whole was very beautiful and impressive and was appreciated by all. Thus the church year closes under very favorable auspices.

W. H. LEWIS, Curwensville

POOR BLOOD DANGEROUS IN EPIDEMICS

Keep in Good Physical Condition Every Day to Fight Off Effects of Germs

SAFETY IN RICH RED BLOOD

Gude's Pesto-Mangan Builds Vigorous Blood. Recommended by Physicians for Thirty Years as a Reliable Blood Tonic

A great many people, working hard every day, get in a run-down condition without realizing it. They have days and sometimes weeks when they do not feel just right, and they worry along, thinking that they will soon be in good shape again. It is true that they are not really ill. But when the system is run down it is usually due to weak blood. When you overdo and catch cold easily, the system gets run down, so that when an epidemic comes along, germs have an easy time of it.

If you do not feel up to normal, if you are all tired out and listless, take Gude's Pesto-Mangan for a while and notice the difference. It makes rich red blood, tones the system up so that you feel like getting things done. Your appetite comes back, you eat heartily and if there is nothing vitally wrong, you will be yourself again. You will be up and doing and you will get exercise and fresh air and plenty of sleep.

Gude's Pesto-Mangan is put up in both liquid and tablet form and is sold by druggists everywhere. The liquid and tablets have exactly the same medicinal value. Buy which ever you prefer and be sure it is Gude's Pesto-Mangan. The name "Gude's" is on the package—Ad.

present are as a unit in saying that it was one of the most enjoyable evenings that it was their good fortune to be entertained.

The Lutheran folks are preparing a lengthy Cantata as an Easter service. As the program is quite lengthy, space forbids its publication in full in the Curwensville letter. The title hereof is called "Light After Darkness."

Stanley Kahan, who is attending a pharmacist school in Pittsburgh, is expected home for the Easter holidays. He will be accompanied by two school chums.

Three new Ford autos came to Curwensville last week. They were purchased by W. A. Thompson, Guy Seidman and St. Richards Jr.

A good many patrons are thinking seriously of taking out their H. & C. plates since that company has announced an advance rate. They think the new schedule is rather excessive at this time when both work and money is scarce.

LEITZINGER BROS.

Store opens at 8 a. m. closes 5:30 p. m. except Saturday 8 to 9 P. M.

LEITZINGER BROS.

SAVE 50c to \$10.00

On Your Next Frock
by Using the Deltor

It shows you how to save from one quarter of a yard to one and three-eighths yards of material.

The saving amounts to \$2, \$4 and as high as \$10 with expensive materials. Even with average-priced materials, it saves more than the cost of the pattern with the Deltor.

Perhaps it's a suit you want or one of those smart sport coats or a trim little dress to wear with your Spring furs or one of those intricate colorful negligees or an evening dress from Paris?

Whatever you want, if it is clothes, you can have it successfully for a negligible cost by following the wonderful patented invention for making your clothes at home.

The DELTOR

is a series of sketches, a picture-lesson enclosed with your new Butterick Pattern, for sale in this store, showing your suit, your dress, from the time you cut it out until it is completely finished. There is just enough printed instruction to make the pictures talk.

Cutting

Cutting charts aren't new? This one is! It doesn't show size 36 only when you have bought 42. It doesn't show it for 40-inch goods when yours is 34. It shows the pattern-drafter's own "trick-lay" for every size and every width of goods. And in so doing, it often saves you dollars in material.

Putting Together

And then—you won't have to debate any more as to what to do first. And whether that's the back or the front of the sleeve. And how the belt goes on. And why, oh! why, you can't seem to make the cuff behave. It's all in your Deltor. In pictures. With nice little brief instructions.

Finishing

And there's a page of inestimable value—a page of finishing instructions, those little-big things that make all the difference between a French model and a Sixth Avenue imitation. No general finishing instructions, but specific instructions for making that one dress, of your material, in your size.

Best of all, when you've made a dress by the new way—the Deltor way—you not only have the dress itself, and all the money you would have spent if you had to buy it ready-made, or go to an expensive dress-maker for it, you have the real beginnings of a dressmaking education.

Our Pattern and Dress Goods Departments are at your service during the sewing season.

LEITZINGER BROS.

Beeswax Finish.

To try this method of covering the cracks in furniture soften beeswax until the consistency of putty, then press it into the cracks very firmly, smoothing the surface over with a thin knife. The surrounding wood should then be sandpapered with fine sandpaper, working some of the dust into the beeswax.

Unfair Discrimination.

Nicholas watched his papa give his two older brothers money for candy and money for the collection at church. He wanted to go to church also, but his papa told him he would have to stay at home. He immediately said: "Why don't you make them kids stay home? They're the ones who always want the nickels."

GRAY HAIR DARK

It's Grandmother's Recipe to Bring Color, Lustre and Youthfulness to Hair When Faded, Strained or Gray

That beautiful, even shade of dark glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's Sage and Sulphur Compound" now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. This ready-to-use preparation is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

COVINGTON TOWNSHIP
RESIDENT DIES

Domenick Guenet, one of Covington township's best known citizens, died last evening at his home near Frenchville.

ODDS AND ENDS
AND THINGS

By "Skinney"

Just because he happened to see his wife kissed by his employer was no reason why Raymond Clark, of Gray's Lake, should lose any sleep. Clark testified at the trial of his \$50,000 alienation suit against Wilmer Brewer, that he tip-toed to the head of the stairs and saw Brewer kissing Mrs. Clark. Clark said he went quietly back to bed and was asleep in two minutes.

Dr. Britan, noted thinker and scientist, has turned his massive brain toward ciphering out the common places of life and incidentally shows up the development or advancement of the genus "old maid".

Dr. Britan says there is no such a thing as love at first sight and specifies the different "ages of mush" and the degrees of "mushiness" to be encountered as we "pass along."

As a summary of the several ages of susceptibility in love, Dr. Britan said: "After 20, incidental remarks will hardly serve to focus attention and to awaken interest; after 30, the sediment of prolonged experience has settled over the instinct and often so solidified, that toy tools will seldom suffice to break through to the emotion bearing Paleocene stratum of human nature. Commonsense, good judgment to discount the enthusiasm and ment, a truer perspective of life, exaggerations of love's young dream and demand a firmer basis for the happiness to the won."

As a rule and speaking of husbandmen we know a farmer doesn't care a bit more for a dollar than he does for one of his eyes, although it is true people have been known to separate some farmers from a dollar without a major surgical operation. One Augusta, Ga., farmer discovered through the operations of the income tax is entitled to the "fur lined bath tub" for pure downright hangoutness. This Georgian figured out his income tax and found after hours of calculation that he owed Uncle Sam just four cents. He insisted on his right: under the law to pay in four installments and immediately invested three cents in a one cent money order which he mailed to the Internal Revenue department as payment No. 1.

A "Colym" reader happened on to the following "bill of stuff" among his old papers and thinking our readers would be interested in a comparison of lumber prices in 1845 with present day rates. This interesting relic of the past follows:

Bill of stuff for Bigler, Boynton and Powell.

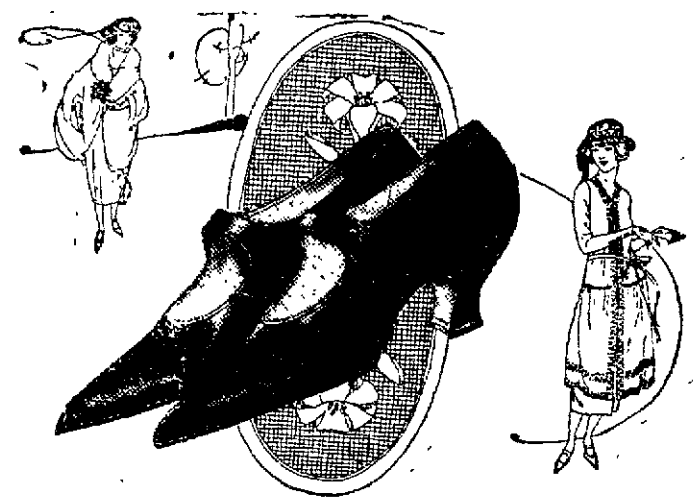

132 pieces 24 ft. long, 5x12.
22 pieces 23 ft. long, 5-12.
10 pieces 24 ft. long, 3x10.
10 pieces 23 ft. long, 3x10.
10 pieces 23 ft. long, 3-10.
10 pieces 24 ft. long, 3x9.
10 pieces 23 ft. long, 3x9.
or the above bill man to pay \$6 per 1,000 feet delivered at Clearfield town on rafts.Bigler, Boynton and Powell
Per J. F. Weaver.
Clearfield, Pa., Dec. 31, 1845.

"Kneenoma" has become epidemic in Philipsburg, even among the older women since Paris set the new style in short dress tunics. This may be a libel on Philipsburg but that strutting, ancient burr can come back at Clearfield by saying "You're one" as it used to do.

Clearfield county can boast of having within her borders the oldest undertaker in active business to be found in these United States. The gentleman in question is John, familiarly known as "Pappy" Sweeney, of Houtzdale. Mr. Sweeney has been located at Houtzdale ever since the town came into existence more than 50 years ago. He was long recognized as one of the most efficient funeral directors and most progressive business men to be found in this section of the state and built up a lucrative business being called, by reason of his exceptional ability to conduct funerals, all through the Houtzdale region. His son, H. H. Sweeney, when he grew up assisted his father and the past two years or more has assumed many of the burdens of conducting the business. Nevertheless the old gentleman, despite the fact that he is now in his ninety-sixth year, has kept abreast of the times and assumes charge of funerals from time to time. His last job was the burying March 11 of John Mooney, another pioneer Houtzdale. "Pappy" Sweeney would allow no other person to look after the final details of laying away the remains of his lifelong friend. He assumed entire charge of the funeral, directing

The fellow who used to eat cloves to avoid suspicion now knows all the patent medicine labels by heart.

After all, a shortage of white paper doesn't bother some of us as much as a shortage of the long green.

We suppose the man who hasn't been in to tell us about seeing the first robin is busy framing up a fish lie for later on.

If Edison succeeds in communicating with the dead he may be able to find out what became of the five cent cigar.

The man who buys his clothing from a mail order house need not tell anyone where he got it. The clothing speaks for itself.

One thing every person finds out early in life is that a grouch is like a baby—the longer you nurse it the bigger it grows.

The money Europe is spending to try and persuade America cancel war debts would go a long way toward paying off some of them.

THE ONLY WAY

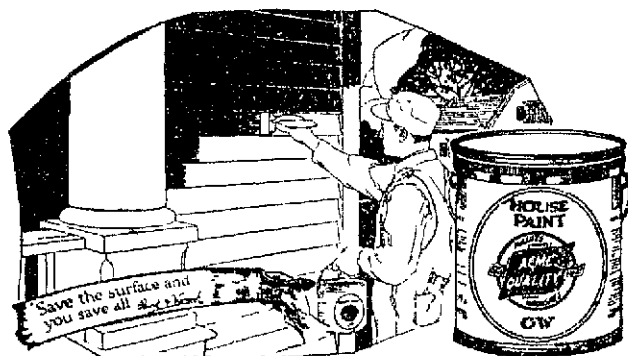

Now and then we are reminded of the old Indian who heard that his white brother gained much comfort from sleeping on feathers, and who one night secured a single feather, slept on that one feather all night, and arose in the morning to declare that the white man was a confirmed fool.

Sleeping on a single feather and expecting to be comfortable is about like putting one ad in a newspaper and expecting to get rich. You've got to have several feathers to make a bed, and you've got to run several ads to build up a business. The merchant who feels the pulling power of advertising will tell you that spasmodic advertising seldom pays. You've got to keep hammering it into the heads of the people you want to sell to that you have what they want and at a price that will satisfy them. The makers of Pears soap advertised for 50 years and a few years ago they stopped advertising and tried to live on their reputation. It only took a few years for them to see that the soap men who were advertising were putting them out of business, and they started advertising again before it was too late. There is only one way to advertise—and that is regularly and systematically. If you toot your little tooter, then lay away your horn. Within a week there's not a soul who'll know that you are born.

The man who advertises by short and sudden jerks is the man who's always kicking because it never works. The fellow who is on the job, a-humping every day, and keeps forever at it is the one who makes it pay.

LESSON IN THRIFT

Had the \$1,800 found in a feather tick by Mrs. Clyde Mauck at Mill Hall recently been placed in the bank 25 years ago, when it is supposed to have been hidden in the tick, it would now have amounted to more than \$4,000 at three per cent interest compounded annually, if it had been placed in a bank and kept there, and if it had been invested in a mortgage or other security at six per cent the total would now be more than \$5,000. What a lesson to the fellow who hoards his money in the home instead of making it work!—Philipsburg Journal.

Paint Creates Prosperity

Save the Surface and You Save All

The "run down" house (there is one near you) is fast going to ruin merely because the owner unwisely neglects to keep it protected with paint.

It costs more not to paint than to paint. Paint saves the surface and protects the building from sun, rain, frost and varying weather conditions that bring destruction.

Prosperity demands the protection of all exposed surfaces with good paint.

ACME QUALITY
HOUSE PAINT

gives lasting protection and beauty.

It costs less because it takes less and lasts longer. Call at our store and let us show you color samples and assist you in selecting the proper color combinations that will make your house appear to the best advantage.

J. L. LEIB, Curwensville, Pa.

The KITCHEN CABINET

(© 1921, Western Newspaper Union)

Wherever a true woman comes, home is always around her. The stars may be over her head, the glow worms in the night-cold grass may be the fire at her foot, but home is where she is—Ruskin.

WHAT TO HAVE FOR DINNER.

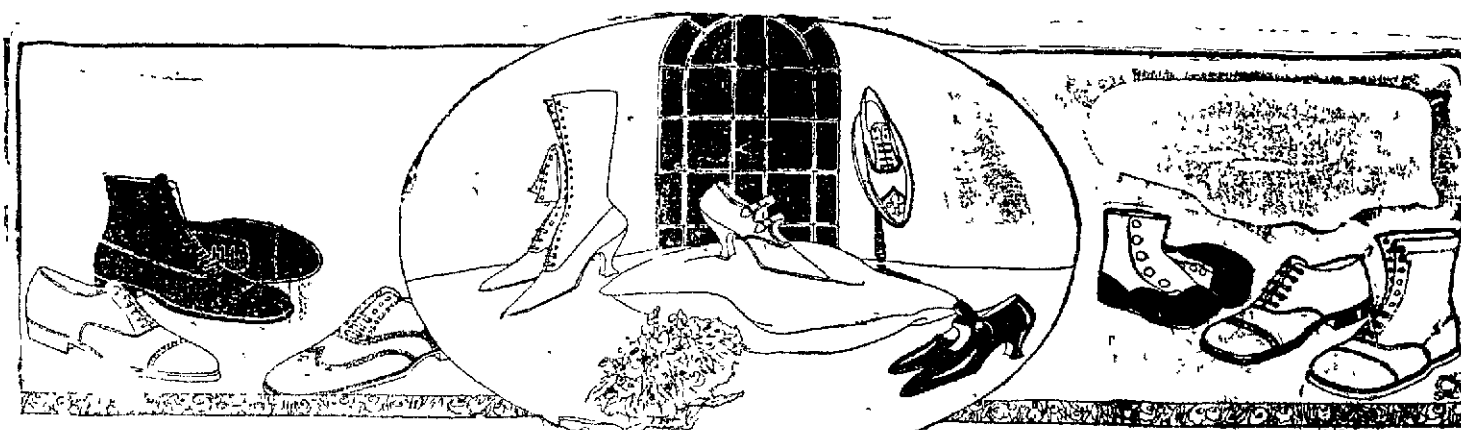

"With a healthy body, a mind at ease," a simple dinner will always please. When we lose interest in our meals it is time to consult a physician.

Hungarian Goulash.—Put three tablespoonfuls of fat, fried from salt pork, in a frying pan with a peeled sliced onion; cook until brown. Remove the onion, and put in a pound of lean veal cut in small pieces. Stir and cook until the meat is seared and lightly browned, then place in a casserole. Add a pint of broth, a teaspoonful of paprika, put on the cover and bake. Brown in a little hot fat a dozen small potato balls, and the same number of onions. As soon as the onions are well browned, add the vegetables to the casserole after the meat has cooked an hour. Season with salt and add two tablespoonfuls of flour mixed with cold water. Let cook about two hours in all.

Onions Stuffed With Ham.—Peel eight good-sized onions, cover with boiling water and cook until nearly tender; drain, rinse in cold water and drain again. Cut out the center of each onion to leave a thin-walled cup. Sprinkle the inside with salt. Mix together one cupful of chopped cooked ham, one cupful of soft bread crumbs, one-fourth of a cupful of melted butter, half a teaspoonful of paprika, one tablespoonful of finely chopped parsley, one-fourth of a teaspoonful of salt, and the onion that was taken from the centers, chopped not too fine. Fill the onions with this mixture, rounding it up well. Pour a cupful of thin cream or rich milk around the onions and cook in the oven one-half hour, basting three times with the liquid in the pan. Mix three tablespoonfuls of melted butter with three-fourths of a cupful of cracker crumbs and spread the mixture over the onions. Return to the oven to brown the crumbs. Serve from the baking dish.

Any good supply cheese which has become dry, if grated and stirred into hot cream, seasoned with paprika and red pepper, makes a fine cream cheese which may be used for sandwiches.

DRINK HOT WATER BEFORE BREAKFAST EVERY MORNING

Hopes every man and woman here will adopt this splendid health habit.

Says a glass of hot water with a teaspoonful of limestone phosphate in it washes poisons from system, and makes one feel clean, sweet and fresh.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days head-achy, dull and unstrung; some days really incapacitated by illness.

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-checked people everywhere. The reason is that the human system does not rid itself each day of all the waste it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons in the bowels which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each

morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, sick headaches, rheumatism, lumbago, nervous days and sleepless nights have become real cranks about the morning-inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing, sweetening and refreshing effect upon the system.

PITTSBURG MAN MAKES WONDERFUL STATEMENT

Declares Tanlac Enabled Him to Eat Better, Sleep Better and Work Better — Has Gained Thirty Pounds

HARRY M. ALLEN
Of Pittsburgh, Pa.

"I consider Tanlac the grandest medicine in the world, for I have actually gained 30 pounds in weight since I began taking it. It has just simply filled me with new life and energy and for the first time in years I can sit down to the table and enjoy three square meals a day like other people. In fact Tanlac has made me eat better, feel better, sleep better and work better, and I guess that's all a man can expect of a medicine."

"Before I took Tanlac, I was off 25 pounds in weight and was so badly run down I was hardly able to do my work. Nothing seemed to agree with me and my food invariably soured on my stomach. I would always have an uncomfortable, bloated up feeling in my stomach and although I tried many kinds of medicines, I never got relief until I took Tanlac."

"I also suffered considerably at times from Rheumatism but this has all disappeared. In fact, this wonderful medicine has made a new man out of me in every way. I feel years younger and can do as much work as in any day of my life."

"Of course I am only too glad to give you my testimonial because I want other people who are suffering from Tanlac."

as I did to take this medicine and get relief."

The above remarkable statement was made by Harry M. Allen, residing at 1009 Saint Martin street, Pittsburgh, Pa., a well known employee of the Oliver Iron & Steel Company of that city. Mr. Allen is a well known member of the United Presbyterian Church and is highly respected by all who knew him.

Tanlac is sold in all leading drug stores.

Could Be Bought Off.

Alice was staying with her father one evening while her mother was away. The father, while reading, was wiggling the floor lamp and Alice spoke up: "You know mamma does not want you to play with that lamp. She waited a minute, then added: 'If you will give me a nickel I won't tell her.'"

Greatest Man.

Leonardo da Vinci is considered by several competent judges to have the strongest claim to the title of the greatest man in history. He was the outstanding genius in the golden age of genius, the age of Shakespeare, Luther, Erasmus, Cervantes, Michael Angelo, Titian and Raphael.

Negroes Came Before Pilgrims. Twenty negroes were brought to America in 1619. So the negro has been an American one year longer than the Pilgrims.

The Deadly Arrow.

A mounted Indian or white man with bow and arrows sometimes could kill more buffaloes than a man could kill with a rifle, says the American Forestry Magazine. At close range the arrow was as deadly as the bullet. It made less noise, and arrows could be discharged four times as rapidly as bullets from muzzle-loading guns.

Oriental Peculiarities.

Chinese medicine developed a special fondness for fossilized "dragon bones," derived from extinct herbivora. They are also fond of "straggled teeth," as fossilized shells are called. In Shantung, glue is made from asses' skins. In a certain town of that province is a well, the water of which, when drunk by asses, makes their skins especially good for making glue. This glue brings a fancy price, as it is a famous tonic throughout China.

Don't Value Yourself Too Low—

In buying Life Insurance many men value their true worth too low because they fear the premiums will prove to be a drain on their purse. Your life has a definite value in dollars and cents, measured by your income, your prospects, the responsibilities of your family. Let the Life Insurance man help you in determining your real worth, then insure your life for its full value. At the same time be sure you have a Savings Account to make it possible to Save regularly and surely to meet the premiums when they fall due.

THE GRANARY

A Column of News and Timely Topics for the Man Who Feeds the World

INTERNATIONAL HARVESTER COMPANY MAKES ANNOUNCEMENT ON REPAIR PARTS

Numerous articles have appeared in the local press in certain sections of the country during the past few weeks stating farmers are alarmed at reports that the larger implement houses of the country threaten to curtail delivery of repairs with the idea of increasing the sale of new machinery at advanced prices. The statement is also made that in order to counteract this alleged movement the farmers are organizing to stage a "Machinery Fix-up Week" to be observed some time during the month of February. A further statement is made that "One large implement manufacturing firm," in particular, has announced that it will not send out parts or repairs for old machinery this year, and that this house has previously held a national reputation for reliability. The natural inference of the majority of farmers who read such statements is that the International Harvester Company is the one referred to as "the large implement manufacturing concern."

We do not believe that any manufacturer of farm-operating equipment in this country would refuse to furnish repairs for machinery of its

own make for any cause whatever. So far as we are concerned, we brand these reports as false and malicious in every particular.

Our records show that we not only supplied a much larger proportion of repair parts during the war period but furnished them at a lower margin of profit. To insure the best of service to the farmer this year, we have provided and already shipped up to date to our branch houses and dealers a greater quantity of repair parts than we ever did up to this time in any preceding year.

Very truly yours,
International Harvester Company of America.

Try a Want Ad

Heart Trouble Not Fatal.

Heart disease is not the harrier to an active life of usefulness as has always been supposed, said Dr. Frederick Brush to the National Society for the Promotion of Occupational Therapy. Nothing is gained and much lost by telling cardiac patients not to work, not to carry, not to play, and so on. Under proper supervision the person with heart trouble can take a large part in active life.

Atmospheric Action.

The atmosphere of the earth acts very much in the same way as does the glass of a greenhouse—it allows the rays of the sun to pass through, but imprisons the heat. Thus it is cooler on the top of a mountain than at the sea level, because, though the mountain top is nearer the sun, the atmosphere is much less dense.

Easily Explained.

Hub—"I'm puzzled about the house money, Mary. If I give you a lot you spend a lot, but if I don't give you so much you seem to get along with it just as well." Wife—"It's very simple, dear. When you give me a lot I use it to pay the bills I run up when you don't give me so much."

Squeaking Shoes a Good Omen.

Theatrical people have many superstitions and they cling to the profession closely, one being if an actor's shoes squeak, ever so little, as he makes the first entrance, he is assured of a welcome from the audience.

Harmony.

What some men would like to know is why, if girls never put on long dresses now when they grow up, they shouldn't keep on wearing hair ribbons.—Costen Transcript.

Cost Less At

MIRKIN'S

The Women's Section is resplendently beautiful these days with those things that go to make the Easter wardrobe a thing of beauty. And one of the outstanding features of the display is the remarkably low prices that you'll find on the tickets.

Coats, Suits, Dresses, Waists, Hosiery, Lingerie At Prices You Feel You Can Afford.

When we say "at prices you feel you can afford" we mean that the policy of this section is to make smaller profits and more sales. That means that you're going to find things here underpriced—way underpriced—for the values you'll get.

The Men's Section is Ready With Easter Displays

A. MIRKIN

A Clothes-Washing Method That Took 5,000 Years to Perfect

The housewives of ancient Egypt washed clothes by spreading them along the banks of the Nile, and stamping upon them with their feet. Greeks of Homer's time did their laundering by beating their clothing with sticks and stones.

Then slabs of rock came to be used, and finally roughened boards. It was from these last that the old-time washboard grew.

Our laundering methods, developed by men who have made a lifelong and scientific study of textiles and of soaps, are the final result of thousands of years of laundry progress.

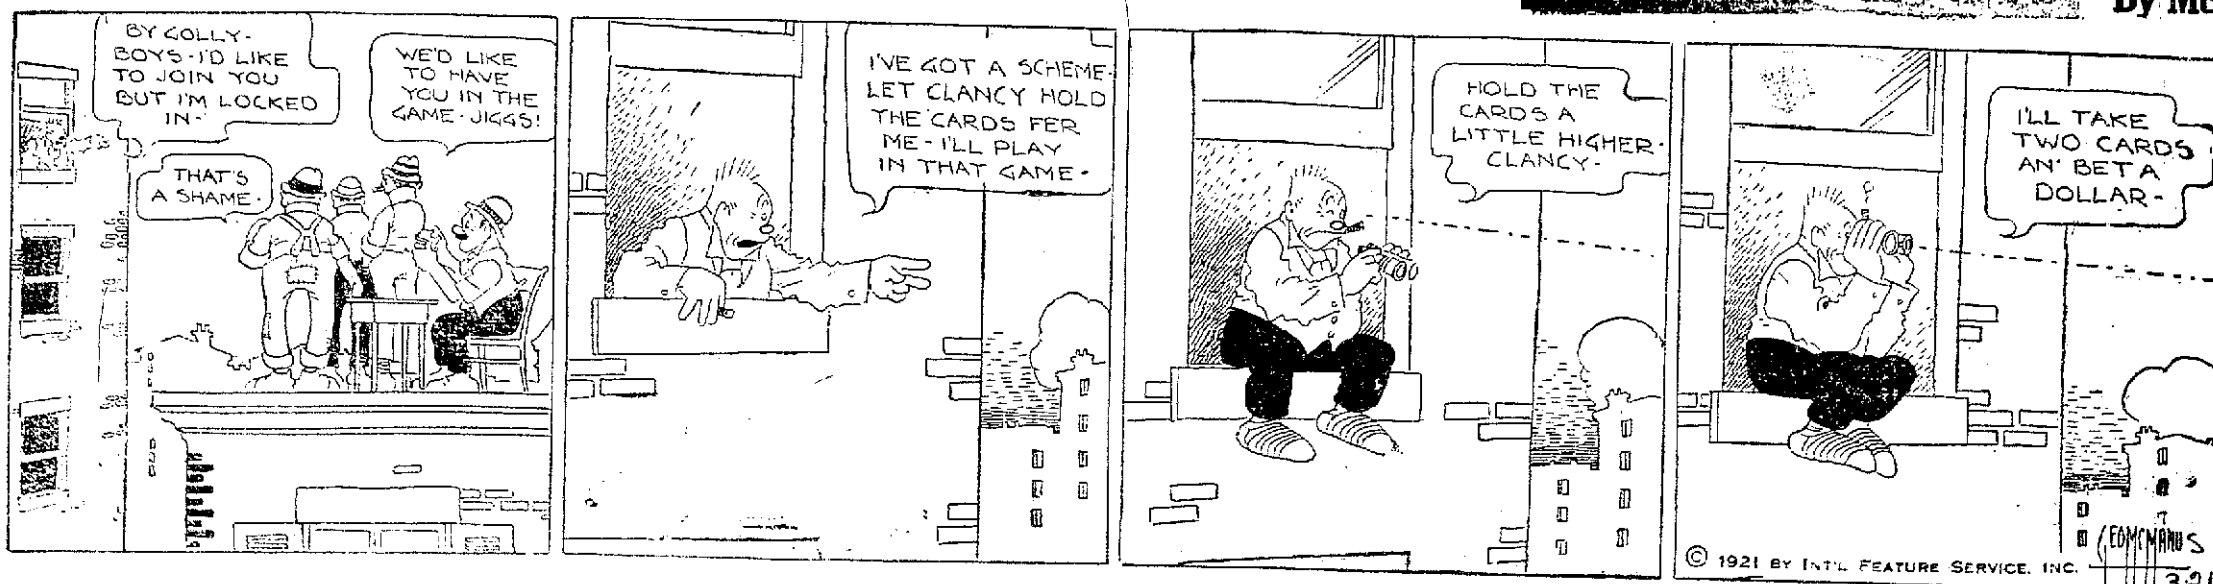

It is the soft water method—the process that enables us to give your family washing thorough cleansing and complete sterilizing. It is a method that saves clothes and protects health.

When the trials of washday become burdensome, send us your family bundle and let us wash for you in the modern way. Telephone or mail us a card and our driver will call.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief. Musterole is a clean, white ointment made with oil of mustard. Better than a mustard plaster and does not blister. Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet—colds of the chest (it often prevents pneumonia). It is always dependable.

Enroaching Age Shows Eye Defects

You may have had glasses fitted several years ago that you think are all right and yet they're not quite all right. Your eyes change as much with passing years as any other sense. Keep your eyes abreast of the times.

Ruddy Cheeks—Sparkling Eyes—Most Women Can Have

Says Dr. Edwards, a Well-Known Ohio Physician

Dr. F. M. Edwards for 17 years treated scores of women for liver and bowel ailments. During these years he gave to his patients a prescription made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. You will know them by their olive color.

These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system. If you have a pale face, sallow look, dull eyes, pimples, coated tongue, headaches, a listless, no-good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets nightly for a time and note the pleasing results. Thousands of women and men take Dr. Edwards' Olive Tablets—the successful substitute for calomel—now and then, just to keep them fit.

A SANITARY KITCHEN SINK

will do much to keep the kitchen clean, protect health, reduce house work and improve the appearance of your kitchen. We have them to fit any need and any pocketbook.

Foley's Honey and Tar COMPOUND

AN OLD RELIABLE FAMILY REMEDY, recommended for coughs, colds, tickling of the throat, spasmodic croup, whooping cough, la grippe, and bronchial coughs, hoarseness, etc.

The First Dose Gave Relief

C. E. Summers, Holdrege, Neb., writes: "Some time ago I contracted a very severe cough and cold due to exposure. My cough got so bad I could hardly sleep for two or three nights. A friend of mine recommended Foley's Honey and Tar Compound, and I got a 50c bottle. The very first dose relieved me. I took a second dose before going to bed and can truthfully say I did not cough once all night. By using as directed the next two days my cough was entirely gone, and I give Foley's Honey and Tar full credit for my speedy and permanent recovery."

For more than thirty years
Foley's Honey and Tar has been
used with satisfaction and success.

Easter Showing of MALLORY HATS

If you have never worn a Mallory, come in and try on a few. A big assortment of Easter styles has just come in.

By the time you've tried on two or three you'll understand why millions of well-dressed men wear a Mallory in preference to any other hat.

If you are already familiar with Mallory quality, all we need say to you is this: The Easter styles are here ready for inspection.

CLEARFIELD COUNTY FISHERMEN

There still seems to be a little "bait" to be had down in Florida, according to the following "fish story" taken from a St. Petersburg, Florida newspaper, concerning a couple of well known Clearfield county citizens:

A catch of 101 mackerel and 24 other varieties said to have been the largest catch brought into the Jupiter pier this season, was made Monday by a party composed of Dr. C. H. Scribner, Patterson, N. J.; W. A. Gould, Brishin, Pa.; E. T. Fullerton, Patterson, N. J., and F. B. Reed, Clearfield, Pa. They were fishing with Capt. A. Truesdale.
